CHINAMEN MUST GO.

An Important Ruling By Acting Secretary Spaulding.

WIDESPREAD IN ITS EFFECTS.

Chinese Coming Here from Canada and All Other Chinese Illegally in the United States Must Be Sent Direct to China Instead of the Country They Claim to Have Come From—Other Washington Dispatches.

WASHINGTON, June 25.—Acting Secretary Spaulding has made a ruling in regard to Chinamen that will be widespread in its application. Three Chinamen Tuesday came to Detroit from Canada, and the commissioner intimated that Canada was the country from whence they came, and to which they should be returned. Acting Secretary Spaulding directed that they be returned to China, and in discussing the points raised by the United States commissioner at Detroit, sent the following telegram to the collector there:

The act of Sept. 13, 1888, not in force as treaty named in Section 1, not ratified. Act of Aug. 13, 1890, page 387, statutes at large makes appropriation, specifically for returning to China, all Chinese persons illegally in the United States. It is useless to return them to Canada to come back tomorrow. The above act was expressly made to meet the difficulty. Under it we return unquestioned to China, as the country from whence they came, Chinese coming from Mexico and British Columbia as they make these contiguous foreign countries the avenue for reaching the United States. The attorney general expresses the opinion that this action is directly in line of carrying out the exclusion act for which the appropriation was made. It is the practice on the Pacific coast when court finds Chinamen illegally in the country for the marshal to turn them over to the collector at San Francisco for deportation to China. Department sees no occasion for different practice at Detroit.

HARD-WORKED JUSTICES.

Places on the Supreme Bench Not Sinecures, Despite the Long Vacations.

WASHINGTON, June 25.—Assistant Attorney General Maury says: "Chief Justice Fuller's remarks in New York as to the relief which the supreme court needed from the pressure of business upon it has brought out some carping criticism on the fact that the supreme court justices take very long vacations. There are some people who think it is inconsistent for the justices to insist that their docket is very crowded and then take vacations lasting from early spring to late fall, and for a month or more at other parts of the year. But the fact is that no supreme court judge could carry on business in Washington during the heated term. The work would kill him, and even if he was willing to stay here, the bar of the country would not come here to try cases in a hot-house such as the supreme court room would be. Furthermore, the vacations of the justices is something of a fiction, for they occupy a considerable portion of their vacation in presiding at sessions of the United States circuit court. During the year a supreme court justice does more work and harder work than nine-tenths of the judges of the circuit and supreme benches of the various states."

A WISE ORDER.

Postmaster General Wamamaker Creates a Board of Promotions.

WASHINGTON, June 25.—Postmaster General Wamamaker has issued an order establishing in the postoffice department a board of promotions, consisting of the chief clerk of the postoffice department, the appointment clerk of the postoffice department, and three clerks of the fourth class, one from the office of the second assistant postmaster general, and one from the office of the third assistant postmaster general, to which shall be referred all questions of promotions in every clerical grade.

The order says that the mode of examination shall be subject to the approval of the postmaster general and the results will include health, habits, industry and adaptability to the specific work. The examination in all cases will be competitive.

After July 1, a record of each clerk will be kept, and the board of promotions are directed to review these records and report quarterly to the postmaster general whatever in their judgment, based on the records, any reductions or promotions should be made.

CAUSES UNEASINESS.

Are the Indians of Arizona to Cause Another Indian War?

WASHINGTON, June 25.—Interior and war department officials are not a little disturbed over the reports telegraphed by General McCook of the threatened Indian troubles in northwestern Arizona. It has been known for some time that many of the old men of the Moquis tribe were protesting bitterly against the government school system in operation on their reservation, but there had been no fear of hostilities until the dispatches were received.

There are at least 30,000 men on the Navajo reservation, and as the majority of them are young bucks an outbreak among them would be a serious affair. This reservation adjoins that of the Moquis, and it is known that they are also discontented over the school question. The war department has telegraphed General McCook to take prompt and vigorous steps to prevent an uprising.

ANYHOW IT RAINED.

Interesting Experiment by Secretary Back in a Washington Suburb.

WASHINGTON, June 25.—The last agricultural appropriation act contained an appropriation of \$7,000 to be used in

experiments in the production of rainfall. The department is now about to embark in these experiments, having prepared to test practically the theory that heavy explosions cause rainfall.

Tuesday evening a preliminary trial was made and a balloon sent up in the northern suburbs was exploded with great violence amid the clouds. Whether the subsequent down pour of rain later on in the evening was caused by the explosion remains to be determined, and the department will try the experiment on a larger scale to test the efficacy of this means of breaking summer droughts.

WHITELAW REID IN TROUBLE.

He is Accused of Violating the Contract Labor Law.

NEW YORK, June 25.—The Advertiser this morning says: An offense against the anti-contract labor law was brought to the attention of the United States district attorney yesterday, which may cost Whitelaw Reid, United States minister to France, \$2,000, besides occasioning that diplomat considerable annoyance. He is accused of bringing two marble layers here from Austria under contract to work on his mansion. The mansion is located in the village of Purchase, Harrison township, West Chester county. It is entirely of granite. The entrance is through a hall seventy feet deep. The walls of this hall are all of marble, with mosaic frieze above. To put this into place arrangements were perfected sometime ago whereby Joseph Will and Joseph Baumberger, both of Innspruck, Austria, left their homes and came here to assist in the doing of the work. It is said that the workmen in this country could carry out Mr. Reid's job as well as those in Europe, is not better.

SMELTING LEAD ORE.

Remarkable Development of the Business Near Monterey, Mexico.

WASHINGTON, June 25.—Advices received by the bureau of American republics indicate that the remarkable development of the business of smelting lead ores in and around Monterey, continues unabated. Previous to the treasury decision, making the lead contained in certain descriptions of Mexican ore dutiable at one and one-half cents per pound, the exportation of mixed silver and lead ores from Mexico into the United States amounted to over 100,000 tons a year.

The ore formerly sent into the United States to be smelted is now treated within Mexican borders. Smelters already in operation in Monterey have a daily capacity of 500 tons of ore. Other works in course of construction will make the smelting capacity equal to nearly half a million tons per annum. It is confidently expected that even this enormous capacity will be doubled in the next eighteen months.

LEFT A BOMB BEHIND.

Dynamite Found in a Room Where An Anarchist Meeting Had Been Held.

NEW BEDFORD, Mass., June 25.—On Memorial Day anarchists in this city held a jollification at a farm of a Bohemian name Mastalla, who lives at the extreme north end of the city, on which occasion Johann Most, now serving a sentence in New York state was present.

When the family of Mastalla proceeded to clean the house, which had been occupied by the visitors, an 8-year-old son found in the match safe an article, which afterward proved to be a dynamite bomb. It was shown to the 15-year old sister by the lad, and while she was examining its structure, it exploded, tearing the flesh off the girl's left hand so badly that it will be necessary to amputate the forefinger and thumb. The boy was knocked senseless, and another daughter, who was standing close by, had the flesh of one hand badly lacerated.

CENSUS WORK HINDERED.

Serious Charges Made Against the Leading Officials Under Mr. Porter.

PHILADELPHIA, June 25.—For some time there has been a dissatisfaction between David S. Thompson, chief of the census bureau of manufacturers in this city and the authorities at Washington, growing out of evident efforts on the part of some one at headquarters to suppress a fair showing of the Philadelphia manufacturers.

Last night Mr. Thompson made a statement of the case for the public in which he charges that from the beginning of the work there has been a most persistent effort on the part of the leading census officials under Mr. Porter to hinder the census work, and that they have resorted at times to many devices unworthy of a department taking a complete census.

RESCUED BY HER DAUGHTER.

An Invalid Lady Choked Into Insensibility by a Negro, Who Is Captured.

LEXINGTON, Ky., June 25.—About 5 o'clock Tuesday afternoon a negro entered the home of Mrs. Nannie Miller, aged 65, and attempted to commit an assault upon her. She has been a paralytic for several years, and the black brute choked her into insensibility. Her daughter, who was in an adjoining apartment, heard the noise, and rushed into the room just in time to see the negro disappear. She identified him as Will Young, and he was arrested in the evening. He denies making the assault, and says he was in Mrs. Miller's yard to escape two big black dogs. He is a villainous-looking mulatto, about 25 years old. Friends of the unfortunate lady threaten to lynch Young, but it is unlikely that any attempt will be made.

NEW YORK, June 25.—A fine statue of the late Archbishop Hughes was unveiled Wednesday at Fordham by the faculty of St. John's college, of which he was founder fifty years ago. A distinguished assemblage listened to the oration, which was delivered by Archbishop Ryan, of Philadelphia.

LAID IN THE GRAVE.

Burial of the Remains of Ex-Senator McDonald.

IMPRESSIVE CEREMONIES.

Thousands Pass Through the House to Take a Last Look at the Dead Statesman—The Floral Tributes Were Profuse and Beautiful—A Number of People in Attendance from Outside of Indianapolis—A Letter from Ex-President Cleveland.

INDIANAPOLIS, June 25.—The funeral of Joseph E. McDonald took place yesterday afternoon from the family residence. From noon until 2 o'clock a constant stream of citizens passed through the house to take a last look at the dead statesman. The Hendricks, Cleveland and Gray clubs, the Marion County and Indianapolis Bar associations, the city and state officials were all present, and the procession included fully 500 vehicles.

Among those from outside the city in attendance, were the dead statesman's brother, James D. McDonald and his son, George W. McDonald, of Attica, Ind.; Don Platt, a cousin from Maccochee, O., and W. C. Shepherd, of Hamilton, O., and Frank Farnsworth, of Washington, Mrs. McDonald's brother.

The floral tributes were profuse and beautiful, and came from every political organization in the city irrespective of party. The funeral ceremonies were conducted by the Rev. Joseph A. Milburn, pastor of the Second Presbyterian church, and the Rev. Dr. M. L. Haines, of the First Presbyterian church. Brief but eloquent eulogies were delivered by both divines at the house, and the ceremonies at the grave were impressive and beautiful.

Letter from Ex-President Cleveland.

INDIANAPOLIS, June 25.—A letter from ex-President Cleveland written at Buzzards' bay before Mr. McDonald's death was received yesterday. The letter contained the following:

I am very much afflicted by the news I receive through the press regarding the critical condition of Mr. McDonald. My conviction that the country and our party need, more than ever, such men as he, and my affection for him as a friend, tend to make me extremely anxious and disturbed by the reports of his dangerous illness. I think no one of his attached personal friends more fervently prays for his recovery than I. If you can do so, I wish you would convey to him the assurances of my affection and my earnest hope that he may be spared for further enjoyment by his friends of his manliness, fidelity and generosity.

Prominent Judge Paralyzed.

COLUMBUS, Ind., June 25.—Judge Beatty McClelland, aged 81, fell on the streets yesterday, due to a stroke of paralysis, and he was borne to the residence of his son-in-law, W. T. Davis, in an unconscious condition. Judge McClelland is a prominent figure. During his life he has served several terms in the legislature, and he was a member of the constitutional convention and helped to frame the present constitution of the state. He has also served as judge of the probate court of Bartholomew county. He cannot recover.

Still Hunting for Annie.

WILKESBAIRE, Pa., June 25.—Barney Seafors, who has a farm and hotel at the foot of Five Mile mountain, five or six miles back in the wilderness from Laurel Run, says he recently saw a large black bear in the vicinity of the place where Annie Fredericks disappeared. It is believed by many that the little girl, while wandering about the mountain side, encountered the bear and was killed and devoured. Several parties of armed men with hounds are still searching for the missing girl.

Insane From Being Hit by a Ball.

ALBANY, June 25.—In the game between the Troys and Providence base ball teams, First Baseman Hartnett, of the Providence team, attempted to prevent a double play by jumping in front of a ball between first and second bases in the seventh inning. He was hit square in the face by the ball. Physicians say that his facial nerve is very badly injured. Hartnett's mind is affected by the blow. He will be removed to his home in Boston.

One Hundred Horses Burned to Death.

PHILADELPHIA, June 25.—Fire broke out in the large three-story brick stable attached to the city gas works at Two Hundred and Fortieth and Chestnut streets at 1 o'clock this morning. Over one hundred horses were in the building and they all perished. The Baltimore and Ohio railroad stock, opposite, was threatened at one time. At 3 o'clock the firemen gained control of the flames.

IOWA DEMOCRATS.

Governor Boies Nominated for Re-Election by Acclamation.

OTTUMWA, Ia., June 25.—The Democratic state convention was called to order at 10 o'clock yesterday morning in the Ottumwa opera house by Chairman Charles Fuller. Walter H. Butler, of Fayette, was selected as temporary chairman. The usual committees were appointed and a brief recess taken.

When the convention re-assembled ex-Congressman J. B. Pinney, of Council Bluffs, was chosen by acclamation as permanent chairman. After Bussey's speech, C. A. Clark, of Cedar Rapids, placed Governor Boies in nomination for governor. The nomination was seconded from all parts of the hall, and the governor was re-nominated by acclamation.

The convention re-assembled at 1:30 p. m., when the ticket was completed as follows: Lieutenant governor, L. L. Bestow; judge supreme court, L. G. Kinne; superintendent of schools, J. B. Knoepfer; railroad commissioner, Peter A. Dey.

The platform indorses and endorses Governor Boies' administration, reaffirms the license plank of the platform of 1889, demands the Australian ballot and state and national control of railroads, denounces the McKinley bill, favors liberal pensions, urges the free coinage of silver upon a just ratio, and urges a liberal appropriation for the world's fair.

Ohio Democrats.

COLUMBUS, O., June 25.—The Democratic state central committee met here yesterday afternoon, and upon the second ballot selected Cleveland as the place for holding the Democratic convention July 14 and 15. The apportionment of delegates was fixed on the vote cast last year for Hon. T. E. Cromley for secretary of state. This will give the convention 700 delegates. Hamilton county gets fifty-nine instead of eighty-two, as selected by the anti-Campbell men last Saturday, and Franklin has twenty-five.

The Latest Ghost Story.

JEFFERSONVILLE, Ind., June 25.—Residents in the vicinity of Memphis are unusually watchful because of the amount of stealing from which they have recently suffered. Last night about 9 o'clock, at the home of Jesse Coombs, one of his daughters opened the front door and was frightened by meeting a tall, strange woman, dressed in black, who swept noiselessly past her into the house. Miss Coombs screamed, arousing the household, which included two male boarders. All saw the woman in the bright moonlight as she walked along the hall into the room of Mr. Coombs and vanished like so much air. The incident is the sensation of the hour, and the query is, was it a ghost?

AN ELEGANT PRESENT.

Mr. F. E. Janowitz Handsomely Remembered by the C. and O. and L. and N. Employees.

Mr. F. E. Janowitz, who has been the joint agent of the L. and N. and C. and O. railways for a year or so at this point, and who is about to sever his connection with the roads, was handsomely remembered last evening by the employees under him.

When the young men were informed that Mr. Janowitz was to leave here they determined to do something to show their appreciation of the kindness and gentlemanly conduct of their superior, and concluded to have a beautiful plaque handsomely engraved with the following inscription:

C. AND O. AND L. AND N. RAILWAYS, }
MAYSVILLE, KY., June 30, 1891. }

Mr. F. E. Janowitz: Desiring to express our esteem towards you, and as a memento of the kindness shown us, we, the present employees, beg leave to present you and Mrs. Janowitz this dinner set; and while we regret parting with you, our employer, who has proven so uniformly just in all of your transactions with us, yet we rejoice in learning of your advancement to a position of a higher responsibility; and our best wishes go with you, for all that combines toward your future prosperity and happiness.

"Will W. Wyeoff, J. W. Cason, T. J. Boyd, B. C. Stevenson, James Dunn, John Lynch, Chas. E. McCarthy, Thomas Dunn, John A. Shea, C. J. Collins, Hugh Foley, Carol Winter, Frank Smith, John Cagely, Joseph Moran, Martin Hanley, L. Maddox."

The employees met at Mr. and Mrs. Hugh Foley's rooms, at the C. and O. office last night at 9 o'clock, and a committee at once called on Mr. and Mrs. Janowitz and invited them to Mr. and Mrs. F.'s apartments. Their surprise can be imagined at finding the gentleman named above assembled there. Mr. John Shea at once stepped forward and presented Mr. and Mrs. F. an elegant dinner set of 119 pieces. He said:

"Mr. Janowitz, allow me on behalf of the boys present to extend to you and your wife our regrets at your departure. We feel we are losing an employer and friend. Yet we cannot help but rejoice at your promotion. The companies you now represent are losing an able and efficient agent and Maysville a courteous gentleman and good citizen.

"Be assured that we shall cherish no kindlier recollections than that of our association with you. And now in our feeble way allow us to present you this gift of our esteem and hope sincerely you will accept it in the spirit in which it is offered. I know I echo the sentiments of all, when I say I hope it will last as long and stand as firm as our friendship for you."

Mr. Janowitz replied briefly and appropriately expressing his thanks for the gift, and his regrets at having to part with such a sociable and gentlemanly set of young men, and at leaving Maysville.

He paid a high compliment to all of them for their gentlemanly bearing and industrious habits since he has been here. After some little preparation Mr. and Mrs. Janowitz invited the party to their rooms where they were entertained sumptuously.

SNATCHED FROM DEATH.

A Child's Narrow Escape From Being Ground to Pieces Beneath an Engine.

Clarence Ross, a little two-year-old toddler, had a narrow escape yesterday from being ground to death under a C. and O. engine.

The child's father lives on the southwest corner of Third and Commerce streets, Fifth ward. When the westbound Ashland accommodation came in view of the Commerce street crossing yesterday morning, the engineer, John Spotts, and his fireman, Harry Hood, saw the little fellow sitting in the middle of the track in front of his home.

The warning whistle was blown, but the child was too young to be aware of its danger and continued at its playing.

Spotts now reversed his engine and turned on the brakes, but the train was too close to be stopped before the child was reached. The speed was checked, but the engine was slowly moving down on the little fellow when fireman Hood jumped to the ground, ran forward and pulled the child from the track just in time to escape the engine.

It was a feat not often done, but an engineer performed a similar deed on a road up in Pennsylvania not long since.

Engineer Spotts, who was in charge of the train yesterday, is a crippled man, and has a wooden leg as the result of an accident on the road a year or so ago.

THERE will be the usual prayer meeting at the Baptist Church to-night, conducted by the pastor.

New Treaty Entered Into Between Chili and Bolivia.

BISMARCK AND THE KAISER.

Split in the German National Liberal Party—Parnell Takes Out a Special License to Marry Mrs. O'Shea—Financial Situation of England—The Omnibus Strike in Paris Settled in Favor of the Strikers—Other Cable News.

PANAMA, June 25.—The Iquique Opinion Nacional, of the 27th ult., publishes a telegram from its Mollendo correspondent to the effect that the congressionals had entered into a treaty with Bolivia, by which the latter country cedes Antofagasta to Chili in perpetuity, Chili paying the debts contracted by Bolivia in Chili, amounting to \$4,000,000.

Bolivia is to be allowed to import free, by way of Antofagasta, while Chilean merchandise is not subjected to higher duties than Chili imports from Bolivia. This news has been partly confirmed by the publication of a decree of the Bolivian government, recognizing the congressionals as belligerents.

Justin McCarthy to Retire.

DUBLIN, June 25.—The retirement of Justin McCarthy, member of parliament, from the leadership of the Irish party is expected to immediately follow the release from jail of John Dillon. There appears to be a consensus of opinion that Mr. McCarthy, as leader of the Irish parliamentary party, has proved a complete failure. His friends seek to explain this by saying that he has not been able to devote much of his attention to his political duties, and that he has always looked upon his position as leader as of a temporary character. It is claimed that were Dillon to become leader of the Nationalists, a few more of the Parnellites would come over to the ranks of the great majority of the party.

Financial Situation in England.

LONDON, June 25.—The Daily News, in its financial article, says: The continued drain of gold from America is gradually tending to the inevitable adoption of a virtual silver standard. Good crops may succeed in recovering a portion of £12,000,000 of gold already exported this year, but every year brings nearer the time when silver certificates will be forced into circulation. When the change comes there might be a rush for silver, but it is more likely that the silver already coined will suffice for currency purposes with paper. Therefore the idea of an unlimited new demand for silver is unwarranted.

Split in the German Liberal Party.

LONDON, June 25.—Berlin advices state that there are serious signs of a split in the National Liberal party on the subject of Bismarck. The National Zeitung, chief organ of the party, shows a marked coolness toward the ex-chancellor, and a disposition to antagonize the supporters of Bismarck in their attitude of uncompromising hostility toward the Kaiser and his government. It is believed that the result will be a re-organization of political parties in Germany, on new lines in accord with the changed political situation.

Successful Strikers.

PARIS, June 25.—The Bordeaux omnibus strike has resulted in a victory for the drivers and conductors, who all returned to work yesterday. The municipal authorities promptly modified their agreements with the omnibus company so as to make it possible for the latter to accede to the strikers' demand for a working day of twelve hours. The result not only gives satisfaction to both parties to the struggle and to the people of Bordeaux, but is received with rejoicing in this city.

Parnell to Marry Mrs. O'Shea.

LONDON, June 25.—Mr. Parnell has obtained a special license to marry Mrs. O'Shea. He has been compelled to do this, owing to the delays interposed by his local clergyman in Brighton. He can now be married Thursday. He has intimated that no one is to be present at the ceremony, which will be conducted with the strictest privacy.

Expensive Colonies.

LONDON, June 25.—A Berlin dispatch states that the German government is considering the question of abandoning the German possessions in New Guinea and the Bismarck archipelago, those colonies showing no signs of becoming profitable, notwithstanding the expense incurred in their improvement.

Swimming Race.

LONDON, June 25.—Dalton, the American swimmer, and a man named Fisher, yesterday engaged in a swimming race between Dover and Ramsgate. After being two hours in the water Dalton became so chilled that he was compelled to leave the water. Fisher was declared winner.

Chicago Man Dies at Sea.

LONDON, June 25.—A man named Meyer, said to have been a resident of Chicago, a passenger on the steamer Majestic of the White Star line, which arrived at Queenstown yesterday, became insane on Thursday last and died at sea. The body will be taken to Liverpool.

Vintages Failures Owing to Frosts.

BERLIN, June 25.—The vintages of the Rhine, Moselle and the Palatinate are reported to be complete failures, owing to severe and protracted frosts which prevailed during the earlier part of the season. This is especially true of the Rheingau, or "Rhine country."

British Steamship Wrecked.

LONDON, June 25.—The British steamship Cid was wrecked yesterday off the French coast, and the third engineer and the fireman were drowned. The remainder of the crew have reached Havre.

Official Seal Order Published.

LONDON, June 25.—The Official Gazette publishes an order in council prohibiting British subjects from catching seals in Behring sea from June 24, 1891, to May 1, 1892.

FLOOD DISASTER.

Seventy-Five Houses Washed Away at Cherokee, Iowa.

CHEROKEE, Ia., June 25.—The terrors of the Johnstown flood were in part repeated in this place yesterday. Seventy-five houses have been carried out of sight in a Niagara-like torrent. How many lives have been lost is yet a matter of uncertainty.

A terrific cloudburst, thrice repeated, and wind almost a hurricane, are what consummated the dread work. The storm which began Tuesday night appears to have swept in a vast circle over northwestern Iowa, fully one hundred miles in diameter, with Cherokee as the center.

Up to 10:30 o'clock, owing to the destruction of wires and railroads, only the vaguest reports have reached here from the devastated territory to the west, north and south.

CYCLONE IN MICHIGAN.

A Small Town Reported Entirely Wiped Out of Existence.

CALUMET, Mich., June 25.—Sutherland, Obrien county, a small station on the Chicago and Northwestern railroad, five miles from this place, is reported to have been wiped out by a cyclone, over forty buildings being blown down. The wires are all down, and it is impossible to obtain accurate information, except the reports transmitted through the railroad officials.

The Illinois Central's train No. 2, the passenger which left here late last night at 10:50, is still at Storm Lake, and the trainmaster here says there is no prospect of its moving in the next twenty-four hours.

Sullivan Says He Will Fight.

NEW YORK, June 25.—A dispatch to The Police Gazette from San Francisco says: "John L. Sullivan says that he will fight Frank P. Slavin for \$10,000 a side and a purse of \$25,000 either in the Olympic club, of New Orleans, or the Granite club, of Hoboken, the fight to be decided any time between September and February, and that Richard K. Fox, Al Cridge or Dick Roche can hold the stakes."

Negro Row.

WILMINGTON, Del., June 25.—A serious row took place at Brandywine Springs, near this city, yesterday afternoon. There was a combined excursion there of negroes from Baltimore, Washington, Wilmington and other places. Joseph Morris, his wife, Mary, of this city, were shot, the former in the side and the latter in the face. A Baltimore woman was shot in the side. A dozen other negroes were cut with razors and hurt with stones.

Valuable Discovery.

INDIANAPOLIS, June 25.—Ex-United States Treasurer Huston writes the state geologist that he has discovered valuable limestone and marble deposits on a farm owned by him near Laurel, and that he is preparing to open a quarry. The marble is a crystallized limestone, and is very valuable, so the geologist thinks.

Prominent Man's Sudden Death.

NEW HAVEN, June 25.—Dr. Joseph W. Alson, the Democratic candidate for lieutenant governor in the last campaign, died suddenly yesterday at his home in Middletown.

Statue to Beecher.

BROOKLYN, June 25.—A bronze statue of heroic size, of the late Henry Ward Beecher, was unveiled in City Hall square yesterday with appropriate ceremonies.

Granted a New Lease on Life.

WASHINGTON, June 25.—The president has granted a respite to Edward Belden, of Kansas, until July 23. He was sentenced to hang June 26.

Generous Mrs. Leland Stanford.
